

GLOBAL TECHNOLOGY SUMMIT

Lynne Chou O'Keefe

Partner

Kleiner Perkins Caufield & Byers

Lynne Chou O'Keefe joined Kleiner Perkins Caufield and Byers in 2013 and focuses on digital health and connected devices. She works alongside entrepreneurs to develop impactful technologies and therapies for improving patients' lives.

Before joining KPCB, Lynne had over 12 years of healthcare operating and investing experience. Most recently, she worked for 8 years at Abbott Vascular and Guidant in multiple roles and worked on the launch of more than 10 interventional cardiology and cardiac surgery product families, both in the US and internationally. Lynne led the global launch of Absorb, the world's first bioresorbable vascular scaffold, recognized by *The Wall Street Journal* as Medical Device Technology Innovation of the Year and also covered by *Popular Mechanics*. Lynne was responsible for building the global commercial strategy and therapy development as well as playing a key role in the clinical, reimbursement, and operational strategy for the therapy. Earlier in her career, Lynne worked at Apax Partners with a focus on software venture capital investing. In addition, she worked at Goldman Sachs in the Mergers and Acquisitions group and worked on multiple multibillion-dollar acquisitions and sell-side transactions in various industries.

Lynne earned a bachelor of science degree in industrial engineering from Stanford University and an M.B.A. from Harvard Business School.
