Chris has over 14 years experience in building and managing enterprise workloads in multiple environments. For the past 9 years he has focused on deploying applications and services in cloud environments whilst retaining a strong security posture. He is a capable leader in bringing modern technology practices to large enterprises and is an industry expert in major cloud providers such as Amazon Web Services, Microsoft Azure and Google Cloud Platform.

Today, Chris is responsible for the Cloud Practice for KPMG UK. The team has numerous capabilities around DevOps, Cloud and Automation, allowing the firm to quickly and easily deploy applications and services to clients. By building this capability, Chris has given KPMG a competitive edge in terms of agility and speed to market and is assisting clients in gaining a similar capability themselves. Through these capabilities, KPMG has been able to deploy hundreds of workloads to the cloud in support of our clients business transformation projects.
