

# European Technology Summit

**Victoria C. Albrecht**

Cofounder and CEO  
Springbok AI

Victoria is a serial entrepreneur, global speaker, and CEO of Springbok AI. Springbok AI is an award-winning Generative AI Management strategy and product development boutique specialised in enabling law firms to leverage their unique expertise, increase AFA volume and profitability, attract new clients, and defend their position in the market. Recent public successes include launching fleetAI with Dentons, launching the UK's first AI-powered legal charity document generator for Access Social Care, and enabling Hogan Lovells with conversational AI tools for training and HR.
