

European Technology Summit

Chris Carmody

Senior Vice President, Technology Shared Services, UPMC
President, ClinicalConnect Health Information Exchange (CCHIE)

Since joining the organization 23 years ago, Chris has served in various information technology roles. In his current position, Chris manages an annual budget of over USD300 million and leads approximately 1,200 IT professionals across numerous information technology infrastructure teams, Hospital based technology support and corporate applications. Additionally, Chris is the president and a founding member of ClinicalConnect, Pennsylvania's largest health information exchange (HIE). The organization serves over 5 million patients located in western and central Pennsylvania by securely connecting their vital medical information with clinicians, wherever and whenever it's needed.

Chris has a bachelor's degree in accounting with a minor in business administration from Westminster College, where he currently serves as a member of the Board of Trustees. He also has a Master of Business Administration and Master of Information Systems Management from Robert Morris University. In 2015, The Pittsburgh Technology Council and Greater Pittsburgh CIO Group named Chris Pittsburgh CIO of the Year.
