

European Technology Summit

Chris Coleridge

Founder and CEO

Carbon13

Chris is Senior Faculty in Management Practice at the University of Cambridge, where he teaches Strategy and Entrepreneurship. In 2019, he founded Carbon13, the Venture Builder for the Climate Emergency, a talent-first startup accelerator which brings together scientists, engineers and commercial people to generate startups with the potential to take at least 10m tonnes of CO₂e emissions out of the emissions base.
