

# Tech Summit Middle East

## Yousuf Al Mulla

Founder and Managing Partner, E11 and Board Member  
Emirates Angel Investors Association

Yousuf started his career as an entrepreneur before joining the executive-level of Dubai Government; where, he led and took part in strategic innovation-related and Economic development projects. From 2012 till March 2018, Yousuf was the Group Chief Strategy Officer of Dubai Holding where he focused on investment strategy, innovation and digitalization, and strategy and business plan development. Currently, he is the Founder and Managing Partner of E11, which is a global VC and venture building platform that is based in UAE and US. E11 focuses on investing, building, and globalizing cutting-edge tech startups. In addition, he is involved in several strategic government initiatives in UAE to promote and enhance entrepreneurship ecosystem in UAE and he is an advisor to senior leadership in UAE government. He sits on boards of a few tech and non-tech startups. He regularly mentors entrepreneurs and he launched a startup competition that focuses on enhancing entrepreneurship amongst Emirati university students.

He holds an Executive MBA from INSEAD, MPA from Lee Kuan School of Public Policy at the National University of Singapore (NUS) and a BSc in Business Administration with concentration in Corporate Finance from Marshall Business School at University of Southern California (USC).
