

Tech Summit Middle East

William Brown

Director
Control Risks

 <https://www.linkedin.com/in/william-brown-4aa34a1/>

William leads Control Risks' crisis and resilience consulting team in the Middle East from our Dubai office. He has worked in risk management, business continuity, crisis management and IT disaster recovery, cyber and resilience since 1997. William has been based in Dubai for the last three years working extensively across the Middle East and North Africa, Europe, Asia and Sub-Saharan Africa. He has a track record of designing and delivering major assignments, having worked across multiple sectors, from financial services, oil and gas and mining, to retail, real estate and hospitality.

Prior to joining Control Risks, William worked at several multinational accounting firms, leading their business resilience practices in the UK and the Middle East.
