

Tech Summit Middle East

Yifat Oron

Co-founder and CEO
LeumiTech

Yifat Oron is the co-founder and CEO of LeumiTech, Leumi Group's high-tech arm. In the past 6 years, she has built LeumiTech to be the leading banking platform serving Israel's technology sector. Under her leadership, LeumiTech has developed a comprehensive portfolio of high-tech-specific banking products, as well as a strong ecosystem of relationships with leading investors and service providers, to support both startups and growth companies in all their financing needs. Yifat serves as the Head of Leumi's Innovation Committee and a board member at Leumi Partners.

Yifat has twenty years of experience working with technology companies. Prior to founding LeumiTech, Yifat was a Partner at Vertex Venture Capital, where she invested in and served as a board member of early-stage technology companies in the Semiconductor, Enterprise Software, Healthcare and Cleantech sectors.

Before joining Vertex, Yifat was a Technology investment banking associate at JPMorgan Chase & Co. in New York, where she analyzed mergers and acquisitions, equity offerings, fixed income and syndicated financings. Previously, she spent three years at the Directorate of R&D of the Israeli Ministry of Defense, achieving the rank of Lieutenant in the Economics, Budget & Control Department.

Yifat is a sought-after speaker in industry gatherings, and a well-regarded mentor to technology companies at all life-stages, from inception to IPO.

Yifat holds an M.B.A. from Tel-Aviv University and a B.Sc. in Economics and Management from the Technion – Israel Institute of Technology.
